

# Royal Series Underbar Model Number System

**NEW**

All Royal Series models can be mixed on projects while allowing for a uniform finish.

Krowne is happy to announce our new line of bar equipment along with a more intuitive model number system. This change will increase our range of capabilities and simplify the process of combining different types of bar equipment while maintaining a consistent aesthetic and finish.

**KR19 = 19" Depth**  
(Front to Back)

**KR24 = 24" Depth**  
(Front to Back)

**KR29 = 29" Depth**  
(Front to Back)

*Limited Offerings*

**KR24-GS24**

24"W Drainboard with  
KR24-PE24 top

**KR19-24 with RS-24**

24"W Ice Bin  
with 24" Speed Rail

**KR29-24RD**

24"W Liquor Display

**KR24-24 with RS-24**

24"W Ice Bin  
with 24" Speed Rail

Adding a single speed rail to a **KR19** unit will increase the depth 5" to match a **KR24** unit.

Adding a single speed rail to a **KR24** unit will increase the depth 5" to match a **KR29** unit.

This is a top view of a **KR24** series Drainboard next to a **KR19** series Ice Bin. The **KR19** Ice Bin has a 19" depth, but becomes 24" depth when a speed rail is added. This allows the Ice Bin to match the 24" depth of the Drainboard for a seamless finish to the bar.

This is a top view of a **KR29** series Liquor Display next to a **KR24** series Ice Bin. The **KR24** Ice Bin has a 24" depth, but becomes 29" depth when a speed rail is added. This allows the Ice Bin to match the 29" depth of the Liquor Display for a seamless finish to the bar.

## Important things to note

- **KR19** is our 19" depth (front to back) series
- **KR24** is our brand new, true 24" depth (front to back) series
- **KR29** is our brand new, true 29" depth (front to back) series
- All **KR19**, **KR24** & **KR29** series units come standard with 6-1/2"H x 1-3/4"D backsplashes for a uniform finish (optional 4"H backsplash available)
- **KR24** ice bins have 25% more ice capacity than our standard ice bins
- Both **KR19** and **KR24** now have increased front skirt depth of 13-1/2" on products compatible with speed rails to allow bottles to sit lower for streamlined bartender ergonomics.

**Uniform 6-1/2"H x 1-3/4"D backsplash** across all Royal Series units.

All Krowne products have been updated on [krowne.com](http://krowne.com), AutoQuotes and KCL to reflect the new Intuitive Model Number System.
